

November 3D Event

Jason did a flight demo and talk on his 3D experience and help some members with their flying skills. The day had a low pilot turn out for the 3D flyers, so we opened the field to all pilots. Gary Funkhouser did some flight training with a young flyer and we did a lot of open flying.

All in all, day was a lot of fun, with a lot of flying and see some people getting some help with their skills.
